# Fulfillment

A paid order is durable truth. A provider problem changes fulfillment state — it never invalidates the payment.

OVERVIEW READY TO SHIP SUPPLIER ORDERS PROVIDERS ACTION REQUIRED SHIPMENTS HISTORY

| READY TO SHIP | SUPPLIER ORDERS | ACTION REQUIRED | SHIPPED |
|---|---|---|---|
| 0 | 0 | 0 | 0 |
| Paid, stocked, awaiting a label | Waiting to be placed with a supplier | Paid orders that cannot progress alone | In transit or delivered |

## HOW FULFILLMENT WORKS HERE

**Stocked items** land in Ready to Ship. Copy the address into Pirate Ship, buy postage there, then record the tracking number here.

**Manual supplier items** create a Supplier Order task. Opening the supplier's site changes nothing — only Mark as Submitted does, and it needs their reference number.

**Submitted is not shipped.** Tracking entry is a separate step, and it is what notifies the customer.
